Donation support:
Friends of Disabled Adults and Children (FODAC)

FODAC is a 501c3 that collects, repairs, and provides Home Medical Equipment items such as wheelchairs, walkers, specialized beds etc. to the public each year at no cost. Due to rising medical costs and lack of insurance coverage, the demand for the items we provide far exceeds the donated items we collect. You can help us provide critical daily living aids for people with injuries and disabilities to remain independent and assist caregivers. Learn more at www.fodac.org

Currently in greatest need of gently used items:
